What: **IMPROVISATIONAL PATCHWORK DOODLING WORKSHOP**

Examples of students' work.
All workshop projects
are individualized.

Doodling is the model for this playful yet challenging approach to improvisational patchwork. Letting go of expectations, plans or a preconceived outcome, participants practice building patterns with simple shapes and negative space, while learning basic improvisational sewing techniques. It is a flowing YES, AND “drawing” that accepts and builds on what comes immediately before. Like a doodle it is not planned nor is it random – it’s responsive... and plenty of fun! All skill levels. Sherri has a little more info on [her blog post](http://daintytime.net/2014/06/20/quiltcon-choices-class/), about QuiltCon (<http://daintytime.net/2014/06/20/quiltcon-choices-class/>)

Intermediate / All Skill Levels Welcome
