

October 1, 2020

Friends and Neighbors of Oakley,

The Oakley City Council, Planning Commission, and Administration have determined that the City requires a comprehensive review and upgrade to its General Plan and Land Management and Development Codes (Zoning and Subdivision ordinances). As such, this effort is to be known as the **Oakley City 2020 Vision**. This project will begin with an update to the General Plan. When complete and approved by the Planning Commission and City Council, this document will become the foundation or preamble to many other plans and projects, not the least of which will be a new Land Management and Development Code.

The General Plan is a comprehensive and long-range statement of our community priorities and serves as a guide in day-to-day decision-making which is essential for responsive government.

Please consider the following items:

- Overall vision for Oakley City
- Public services
- Land use and zoning
- Economic and Commercial growth
- Housing
- Traffic
- Recreation, parks, trails, etc.

The Planning Commission welcomes your thoughts and comments regarding the above items as we work to formulate a general plan that addresses the current needs of our community and plans for a future that maintains our amazing quality of life.

Our proposed General Plan will be available soon for review via the city website www.oakleycity.com.

Be advised, this is a dynamic and working document and is subject to change.

Please feel free to contact our City Planner, Stephanie Woolstenhulme at stephanie@oakleycity.com with comments.

Sincerely,

The Oakley City Planning Commission
Zane Woolstenhulme, Chairman
Cliff Goldthorpe, Co-Chairman
Richard Bliss, Commissioner
Jan Manning, Commissioner
Doug Evans, Commissioner
