

Kids Sewing Saturdays

Kids Mini Camps

Kids Summer Camps

Through out the year, we offer kids sewing classes & camps.

Our Kids Sewing Saturdays are set up for [Introduction to Sewing](#) and [Project Class](#).

[Introduction to Sewing](#) is designed to teach first time beginners classroom safety tips, how the sewing machine works, how to begin stitching, basic sewing notions while completing a simple beginner project. This is a required class prior to signing up for a project class.

[Kids Project Classes](#) will further their skills with fun projects that can be completed within 2-3 hours. Kids will cut their own fabric and follow along with their teacher's instructions with a handy little handout they can take home to make their project again.

[Kids Sewing Camps](#) are operated in the summer months and are 5 days, 3-hour sessions designed to get new students up to speed on basic the first day and charging forward on more challenging projects as the week proceeds. Students are encouraged to be creative and work at their own pace.

Sewing machines and supplies are provided in class and additional kits fees may apply during our summer camp series.

Be sure to check our class schedule regularly for date and times. Our summer schedule should be posted by mid-April.
