Trip Itinerary

Your trip starts with you arriving somewhere between 5:00pm-6:30pm. We will give you a boat briefing, and leave the dock around 7:00pm. Dinner is not provided. We usually pick up a pizza on our way. There are some snacks out. You will have a 12-hour cruise to dream of the diving you will be doing in the remote, pristine waters of "[The Dry Tortugas](#)".

Day one:

Arrive at 7:00 am on your first dive site, breakfast will be served (before or after your dive, your choice). Then we will continue to move to different dive sites throughout the day. COMPUTER is required. (Plan on 6 +/- sites per day). You can pick and choose which sites you'd like to dive! Most dive sites average between 40-80 feet, we can customize to your abilities. Lunch and dinner will be worked into your schedules. Snacks and fruit will be out as well.

Day two / three:

Roughly the same schedule as day one.

Last Day:

We either dive the "[Baja California](#)", a World War II transport ship built in 1914. The 266-foot steamship was carrying a general cargo when it was torpedoed just forward of midships by the German submarine U-84 on July 19, 1942. The main wreckage now sits in 115 feet of water off Naples, with the next dive on an [Air Force relay tower](#), (A trip favorite!). Then we will be heading home, arriving between 4:00-5:00pm. **OR** Lately we have been running closer to home about 35 miles from the dock is 'The Hole' a natural sinkhole that goes down to 220' holds a lot of life, then diving 'R' Tower and some natural hard bottom. This allows us to arrive home around 1:00-2:00pm. **Cost: \$1025 NITROX included.** Nitrox, dive computer, and Safety Sausage REQUIRED. A \$250 deposit will reserve your spot(s). Although it's a large boat, it's still a boat so space is limited, 'deposit today to assure your play!' All meals, snacks, water/tea/Gatorade/juice are included. You are more than welcome to bring our own adult beverages, sodas, and snacks. Just bring your appetite, aptitude, and good attitude and the rest will be history!
