Thank You for checking out our Pre-printed Service. This service is designed to mainly focus on names, titles, etc. Anything that is done in the line of personalizing or signage is the typical items we will be doing. We will have different decorative borders available, and as we get more samples, we will post them to help you choose what you would like to have printed. We can print them in solid colors or as the examples shows in multi-colors.

There will be three choices of fabric for you to select, they will be White, Natural and Tea Dye. We may add other fabric samples as we progress in this service.

They can be finished in a couple of different ways, the sample you see on the front of this brochure has been hand embroidered after it was printed with a border surrounding it. They can be finished so the lettering is solid or open in which case they would be perfect for painting or coloring with Inktense color pencils, Color Crayons, or paint. They can also be quilted with a hand stitch or machine after completing.

This is a new service but we are very excited about the potentials. We will add more samples along the way.
