

Dear Garland City Resident,

Garland City is dedicated to finding the best solution for a strong broadband infrastructure, which will help us responsibly fulfill our future technological needs. Dependable broadband has proven to be key in maintaining a good quality of life and enhancing opportunities for job growth and economic prosperity for residents and businesses. Please help us assess the community's needs by completing a short survey.

Here are just a few ways that we think high-speed broadband could positively impact our community:

- Reduce "brain drain." Dependable broadband can make our community a more attractive place to live for young, tech-savvy populations to live and deter them from moving away.
- Broadband infrastructure can dramatically improve streaming speed and reduce buffer and lag time. This will better allow our residents to telecommute, take online classes, and use telehealth services.
- Cities can use public internet hot spots in city parks and other public places to give their community access to free public Wi-Fi.
- High-speed, reliable Internet can also help our community monitor air quality and detect wildfires, potentially saving lives and property.
- City meetings can be broadcasted smoothly with a strong internet connection so that you can stay up to date with local politics and council meetings.
- High-speed Internet can enhance connectivity in schools. Studies show that students with access to high-speed broadband perform better than students without.
- Smart parking can also be powered by through a broadband internet connection. Giving you the ability to park, pay on your phone, and go on with your day.

Please take a moment to fill out this short survey and make your voice count. Reach out to us if you have any questions at office@garlandutah.org or (435)257-3118.

Sincerely,

Todd Miller, Mayor

BROADBAND SURVEY

The City of Garland is dedicated to finding the best solution for a strong broadband infrastructure, which will help us responsibly fulfill our future technological needs. Please help us assess the community's needs by completing a short survey.
