Dive Against Debris®

Data Card

Dive Against Debris is the collection and survey of underwater marine debris. Only report debris you **find and remove from the bottom**. Survey leaders should record **all debris divers collect for the same survey dive on one Data Card**. Report your data via the PADI AWARE app or online at https://www.padi.com/aware/dive-against-debris. See the *Dive Against Debris® Survey Guide* for instructions on using this form.

Survey Date (DD/MM/YYYY)	Survey Site Name			Organization/Dive Center			
Survey Site Location (nearest landmark to help verify location i.e. adjacent road name, nearest city/ town, state/province, country) Number of Participants							
Survey Site GPS Latitude Longitude Coordinates (Set your GPS Map Datum to WGS84) (Take your readings in decimal degrees) Survey Duration (in minutes)							
Survey Depth Range metres feet max min	Area Surveyed ☐ m² ☐ ft²		Total Weight on Debris Collecter □ kg □ lbs E	ed Free Of Debris			
Survey Leader Name Survey Leader email							
Dominant Substrate (check one) □ Sand □ Coral □ Coral reef □ Rocky reef □ Rocky reef □ Kelp □ Mangroves		Seagrass Other (please describe)	Waves (check one) ☐ Calm (0-0.1 m/0-4 in) ☐ Smooth (0.1-0.5 m/4-19 in) ☐ Slight (0.5-1.25 m/19 in-4 ft) ☐ Moderate (greater than 1.25 m/4 ft)				
Weather Conditions from Previous Week		Did You Find Entangled Animals? Identify animal(s) found: Identify entangling debris item: Number of different species entangled: Number of animals found: Dead Injured Released unharmed					
Are you aware of an event that could have contributed to the debris you have documented? If so, describe and provide verification – link to the news, etc.							
Items of Local Concern List the top three debris items you consider a problem in your location and explain why 1. 2. 3.							
What is the most unusual item found?				d □ nals, marine debris impacts, items you can't identify, not remove, etc. See the <i>Survey Guide</i> for more info.			
Count all debris items as one, regardless of size. See Too Small to Count? in the <i>Dive Against Debris® Survey Guide</i> for counting large quantities of small pieces. List debris items under the main material of construction. List items that do not fit into a category here:							

Other Debris Items (Identify Material)
