DesignWorks

Creativity in Three New Dimensions

Now you can paint colorful designs, cut shapes, and create glittering crystal appliqués with a BERNINA sewing and embroidery machine. Use the techniques, individually or in combination, to reach new dimensions of creativity. Three unique accessories along with a modular software package turn your BERNINA embroidery machine into a creative multi-media machine.

The BERNINA DesignWorks Software Suite is comprised of three modules: CutWork, PaintWork and CrystalWork. Each module may be used independently, or in combination with the others. With the DesignWorks Software Suite and your PC, you can create unique designs to use with the PaintWork, CrystalWork and CutWork tools.

With each of the DesignWorks modules, new designs can be created or existing embroidery files may be imported for editing. Use the CutWork module to create files for cutting custom shapes and appliqué designs. Use the PaintWork module to create designs to be drawn by your BERNINA embroidery machine. The CrystalWork module is used to create templates for glittering crystal appliqués.

With the DesignWorks Software Suite and companion machine accessories, your BERNINA embroidery machine will create the masterpiece you envision. Explore new possibilities and combine embroidery with PaintWork, CrystalWork, or CutWork. You will be amazed by the stunning effects you can achieve –whether it be on clothing, accessories, crafts, or quilts.

PaintWork

Let your BERNINA embroidery machine create your own fabric or draw colorful filled shapes, line-work designs, or add lettering to your projects using the PaintWork tool. PaintWork opens even more possibilities to create and edit your own designs or patterns.

Replace the embroidery foot with the PaintWork tool that serves as a pen holder and load with a fabric pen or any drawing tool that fits the holder. Import the PaintWork design file and your BERNINA embroidery machine will create your masterpiece.

CrystalWork

Embellish clothes or accessories with glittering crystal designs. You can create and edit crystal designs on your PC. Create shapes with decorative crystal fills or outlines to create patterns, letters, even enhance embroidery designs with crystals. Then attach the CrystalWork tool, which replaces the needle, to your BERNINA embroidery machine and load the designs to create a custom template. Sprinkle crystals into the template punch holes and set in place with a small brush. Using a heat-set appliqué, press firmly onto the template then gently lift removing the crystals. Iron onto clothing, accessories or other crafting
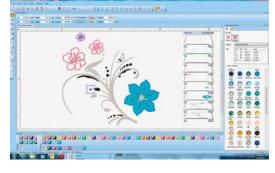

CutWork

Cut custom shapes through single or multiple layers with ease using the innovative CutWork tool. Cut unusual shapes for appliqué, piecing or traditional CutWork embroidery applications. Shapes can easily be cut for three-dimensional techniques. Replace the standard machine needle with the CutWork tool, import a CutWork-ready design file and your BERNINA embroidery machine is ready to quickly cut custom shapes. Cut up to 15 layers of quilt-weight fabrics for appliqué or unusual pieced elements. Use the DesignWorks Software module to create or edit your CutWork designs.
