

Greetings Fellow Quilters,

No doubt everyone is getting tired of these dreary days. Looks like some sunshine is on the way, and am sure some of these projects will add even more "sunshine" into your homes!

You may have read in our most recent newsletter about the new Madeleine quilt. Here is a picture of just one of the beautiful, delicate embroideries. If there is enough interest, we can make this quilt as a class. However, if you would rather just make it on your own, just let us know and we will order the software for you. Please let Susie know your preference. There are some additional pictures on our web site at [www.needlelyntime.com](http://www.needlelyntime.com).

A fun project we have for you is the 'Table Runner' marathon that we are offering on February 5 and March 1. Please let Susie know if you would like to attend these classes by emailing her at [ntimeomak@gmail.com](mailto:ntimeomak@gmail.com). There is no cost for the classes, but we do request you purchase the book. Spend the day with us and see how many runners you can complete from this book. Sew the runners we have sampled or any runner in the book.

Because we are doing Pfaff Club differently this year, there is no deadline on signing up. We will be doing a different project each month, and for the most part, these projects will be kept a mystery until you get to class. We've had a great response and send an extra "welcome" to those of you who are new to

Pfaff Club! Not only do we learn new skills with each project, we demonstrate a different foot for your Pfaff machine that can make your projects easier and with perfection. And don't forget the 15% discount on most things in our shop when you make your purchase as a member on Pfaff Club day!

The best way to know if there are changes or additions to our calendar is to view it online. We have added one additional class for Beginning Patchwork on April 21.

As we head towards the end of January, don't forget in the early hours of January 31, the moon will do something it hasn't since 1866. A super moon, blue moon and lunar eclipse will coincide for a rare and spectacular astronomical feast. Our faithful satellite will shine big, bright—and red.

Happy Quilting!

Lyn
