## Preparations:

1. Wind bobbin with Poly Filament 60wt bobbin thread to match upper thread.
2. Thread your machine with a Robison-Anton® 40wt rayon thread for decorative stitching and 60wt bobbin thread in the bobbin.
3. Draw a vase shape on the paper side of the INSPIRA™ Fuse N Stick and iron onto back of the 3" x 3" piece of fabric for Appliqué vase. Cut along the drawn line. Set aside for Card 3.
4. Put the Multi-Line Decorative Foot on the creative icon™ or performance icon™.

## Card 1:

1. Select **Start Sewing**.
2. Select **LOAD STITCH** 
3. Select **6. MISCELLANEOUS, 1. BOWS AND HEARTS**,  
**Stitch #19** 
4. Place the left edge of the **Multi-Line Decorative Foot** along the fold of the card when you start to stitch. (Note: this is a Maxi heart meaning it is 12.0mm wide so the feed dogs will be moving your card from left to right to create this large stitch so the edge of your foot will not always be on the fold of the card). Sew this stitch all the way down the front of one of your blank cards. 
5. Use the **Thread Snips**  to cut the threads and bring them to the back of the card.
6. Open **STITCH EDIT**  and **Mirror Side to Side** . Place the **second full red line** on the left side of the foot along the top edge of the previously sewn heart to sew this next line of stitching. You can also use the **red horizontal lines** on the foot to line up the top of the stitch. 

7. Select **Help Center** , **Techniques and Tutorials**, **SEWING TECHNIQUES**, **Exclusive Stitch Techniques** and **RADIANT STITCHES**. Read the instructions for using the stitch and watch the video.

8. Open **CONTENT**. Select **Stitch #12**  or stitch of your choice.

9. Note that the **2A** foot is recommended but keep the **Multi-Line Decorative Foot** on, use the **red line** on the center toe as a guide. Keep the center marking on the foot along the bottom edge of the hearts on the **left** side of the card.

10. Use the **Thread Snips**  to cut the threads and bring them to the back of the card.

11. Select **Pattern Restart**  button, repeat on the other row of hearts pivoting in the opposite direction. Trick: use the horizontal red lines on the foot to help keep the line straight when pivoting and stitching the **Radiant Stitch**.

12. Select **Stitch #13** . This stitch is going to be stacked over the previous line of **Radiant Stitches**. Start this stitch at the **Pivot point** of the previous **Radiant Stitch**.
