Ballad

Quilting and Sewing Machine

Compact Digital Dual-Feed System

With the new Compact Digital Dual-Feed System you will have 7.0 mm clearance for stitching on multiple layers or high loft fabrics. A total of 36 utility and decorative stitches can now be used with this foot.

Two-Thread Spool Stand

Easily attach this stand to the top of your machine to add two additional spools or large cones of thread to make switching thread colors quicker and easier.

NeverMiss™ Automatic Needle Threader

The NeverMiss Automatic Needle Threader does exactly what it promises. It's never been this fast or easy - the Ballad threads your needle with little more than the push of a button.

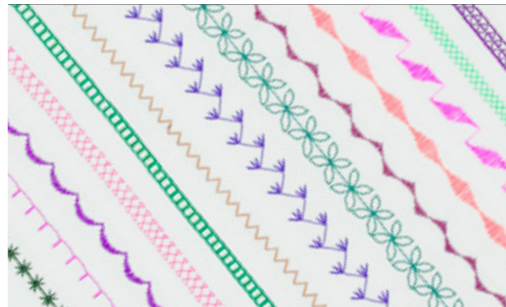

Multi-Function Foot Control

Start and stop your sewing with the main foot control and perform two convenient functions with the heel tap feature and side pedal. These functions can be programmed through the Ballad with this accessory.

Large Throat Space

Comfortably quilt with the Ballad's large throat space. 11.25" to the right of the needle leaves room for thick projects and bigger quilts.

771 Built-In Stitches

With 771 built-in stitches, you'll have many creative options. From numerous utility stitches to decorative ones, you'll find something for every project.
