**TAKE ACTION!** Getting up, stepping forward, and getting involved is how we make a difference. Your participation in our programs is essential. Come join your committees. It's more than just quilting—it's about supporting each other and making tasks easier for our friends who volunteer for Chair responsibilities. You can make a difference.

Don't forget to look at the last page with a recap of Scott Hansen's visit and a slideshow of his quilts and workshop. Thank you Renee for this wonderful event.

Also, hope you enjoy the slideshow of some of the members' quilts, too! We are a group of Creatives!

Dates for Newsletters are: First day of January, April, July, October 2025. Please email your submissions to me no later than 15 days before the above Newsletter dates.

Some time ago, the Quilter's University changed its name to Quilter's Academy, and after sometime of preparatory work, our classes are in full swing. Perry Missner with The Yakima Valley Libraries advertised for this program, and the committee secured two full class sessions, reaching the maximum amount of students in each Session. Each Sessions - of which, there are two - is a series of 4 classes, and the committee is hard at work teaching every Monday. The students are excited and doing quite well. I will have photos of the classes, and students for the July newsletter. The next series of classes will be in the Fall, and dates and times are yet to be determined. Anyone who is interested in teaching at any of the classes, please email Jasmine T Aldrich, Chair at: [jturrubiate@hotmail.com](mailto:jturrubiate@hotmail.com). Also, we are in dire need of cutting mats. Can any member donate any extra rotary cutting mats - mats 24x36, and/or 24x18. Thank you very much!!!

2026 Quilt Show contact  
info; 509-949-6753*

The 2026 Quilt Show is starting strong. We have our guest artists for the show: Community Artist - Kim Mikkelsen and Guild Artist - Nancy Rayner. Attached are the flyers for them.

We still have some positions available for the quilt show and if you are interested in either chairing or helping in any positions, please let me know. The available positions are: Vendor

Coordinator (Diane Poulin will be there to mentor you along the way), Demonstration Organizer, Flowers, Guild Display/projects, Friendship Groups.

I am looking forward to this being a great quilt show.

***Jasmine Turrubiate Aldrich,  
Chair YVQG Program Nights Committee [jturrubiate@hotmail.com](mailto:jturrubiate@hotmail.com)***

Don't miss our upcoming Program Nights — a perfect blend of inspiration, learning, and quilting camaraderie! Whether you're looking to pick up new techniques, refine your skills, or simply enjoy an evening surrounded by fellow quilters, this is the place to be. Come ready to learn, laugh, and be inspired as we explore the creative nuances that make quilting even more exciting. See you there!

Also, we are going to have a DIY program - making a small design board to set by your sewing area. We will provide the supplies, and as such, will need a head count of this November Program Night. Give it some thought over the next few months; in our meetings in September, I will ask for a commitment for those who want to attend the DIY activities. Those who don't you are welcome to come and meander with the DIYers.

We will use the round tables for our DIY working area, so please come early to help set up - I would greatly appreciate it. At the end of our program night, I am asking each of you to put away your chairs and help those members who have difficulty with this task. And if you would, please consider staying a little longer to help put equipment back where it belongs. Thank you!

## YAKIMA VALLEY QUILT SHOW 2026

P R E S E N T S

Yes, I have buried rulers in my backyard! Hasn't everyone? That dang "bi-rangle" is a good example. Who thought that was a good one? And yes, a rotary cutter will cut your foot when you are holding the ruler down with said foot.

Maybe I've improved my skills in quilting, but not without a bunch of cuts and bruises along the way (ego included!).

### *I LOVE quilting.*

My grandmother instilled that love in me from an early age. She did hers with squares from our dresses and shirts and anything she could sew with her treadle machine.

I still have the quilts she made for me, and they are treasured. She lived 104 years, so I'm guessing quilting is a good hobby to land for longevity. That and gardening.

So, my quilting story....I started sewing as a young teen but the quilts didn't take over all the rest of the sewing until about 1984. I've been happily adding to my fabric and quilt stash since then.

What I love the most may be the comradery of my fellow quilters. Our "retreats" are just like Grandma's quilting bees where quilters solve all the ills of the world over beautiful pieces of fabric lovingly stitched together.

Now, we have all the modern accoutrements of machines with TONS of fancy stitches (most of which I never use, but can still drool over), a "spare" machine for those awesome retreats, and now, a new longarm Innova machine! OOH, and lest I forget, an equally awesome amount of FABRIC (aka stash) to work into the quilts still to be created.

So, with a "stash" and some amazing machines, I plan to continue another 40 years making quilts. Cuz' seriously, I have that much fabric and that many quilts to get started!

## GUEST FEATURED QUILT ARTIST

[yakimavalleyquiltersguild.org](http://yakimavalleyquiltersguild.org)

YVGQ2026@GMAIL.COM

I started quilting seriously in 1992. Prior to that I did a lot of craft and clothing construction.

In my early years, my Dad was very encouraging in any craft project I wanted to tackle. He also allowed me to use his shop and tools. This helped me develop my creative spirit. I like doing a variety of quilting techniques. Many times, I stray from the traditional rules to achieve the effect of what is in my mind. I look at patterns and ask how I can change it to be different.

**To me, quilting is an art form.** What else can you do and gain so much pleasure for the price of a little fabric! I see it as a learning curve. Having said this, I also make more than my share of mistakes. However, sometimes that leads to another experiment and experience gained.

I love playing with fabric manipulation and doing thread painting; it feeds my soul. Combining all of this with traditional quilting gives my pieces an entirely new look.

Quilting allows me to share my gift by giving back to my community. I enjoy doing several projects each year which are donated to local organizations and others in need. I believe if God gave me this gift, I should share it!

Scott Hansen Brought the Color -- And We love it!

What a fantastic time we had with quilt designer and instructor Scott Hansen! His trunk show was a feast for the eyes, packed with bold, beautiful quilts that showed just how exciting color can be. Then, in his workshop, Scott made color theory feel easy and fun, giving us all the confidence to mix and match like pros. With his upbeat teaching style and creative insights, he left us inspired and ready to add more color magic to our own quilts!

Take a look at the slideshow below to revisit some of the color-filled fun and beautiful quilts from Scott's visit!
