

Meet The Teachers 2026 Attendance GUIDELINES

Please read through the following information. It will help you get the most out of this year's MTT presentations.

- Ensure you have the latest version of Zoom installed on whatever platform you are using. Go to www.zoom.us download to download and install the latest update, or sign in to your Zoom account, click on the settings icon, and find the latest version to download. **This will be particularly important when we open the Breakout Rooms.**
- All participants will be muted at the beginning of the program. We ask that you remain muted during the presentations. Do not use the CHAT during the presentations because it distracts from the presenter. We are recording this meeting.
- Save all questions for teachers. You may visit them in their Breakout Room after the presentations.
- Each teacher will be spotlighted during her presentation. Please set your "Zoom view" to Speaker.
- To book a teacher, please communicate privately with them in their Breakout room or via email or telephone after the close of the meeting.

When we open the Breakout Rooms you will be able to "join" the room of your choice. To do that, hover your mouse over the room name (Teacher's Name) and click on JOIN. When you're done in that room, you can move to another room or return to the main room. If you have problems, please return to the main room. Do NOT click "Leave Meeting" unless you are finished talking to all the teachers you want to chat with and are ready to leave the Zoom meeting. If you inadvertently leave, you can use the same Zoom link (in your confirmation email) to re-join.

All teachers are on the Affiliate Teacher page at www.SCCQG.org. Find the teacher on the list and click on his/her name to bring up their personal page with contact information. Many listed teachers have short videos linked to their page with basic information about their lectures and classes. Be sure to check these out.
