

SCAN 'N CUT BEYOND BASICS

Supply List

This class is to give you a "boost" with your Scan 'n Cut, and to maybe try some things that you have not done. For some it will be review but hopefully you will learn some new "tricks".

Bring: Brother Scan 'n Cut machine (DX models only) with Power Cord
-Machine accessories including markers, pen holder, stylus, cutting mats, scanning mat, cutting blade and a smile!
-Weeding tool and basting spray and/or tape (just in case)

We will be cutting a variety of items in the class, as well as editing to cut, and there will be a \$10 kit fee for class supplies so that everyone has the same materials. (payable class day)

Let's have fun!!!
