

## **Embroidered Bag Class Supply List**

With Vicki Sanderson

This will be a “workshop” style class to learn this technique on your embroidery machine. The teacher will provide your “practice” bag and note below that you should bring a “real” bag from Walmart or another store (they are \$10 and look great).

### **To Bring:**

- + machine, general supplies
- + embroidery machine with power cord and embroidery foot
- + USB loaded with a 4” or smaller monogram AND another design of your choice no larger than 6X6

(remember this is only a 3-hour class, so a 2-hour stitch out will not work)

- + embroidery thread your choice colors and bobbin thread
- + hoops to stitch your chosen design sizes
- + good needles--size 12 or 14 embroidery
- + sticky stabilizer (preferred) or spray adhesive and tear-away

\*\* If you feel brave enough, bring another unlined bag (available at Walmart) to stitch a design on. We will practice on bags provided for you in class.
