

SWEATSHIRT JACKET

Supply List

This supply list is a bit confusing—as the sweatshirt jacket class is a choice of your style of jacket to stitch. I have three “patterns” to choose from, and some “styles” to choose from. You can take a look at the photos (pattern fronts etc) and at the store sample(s). You will want to have an “idea” of what you plan to do before class, but you can always change your idea when you attend the class! All styles are fun and very special just for you!

Now that you are totally confused—Here is what you need to bring for class #1:

-Sweatshirt—good quality and at least one or two sizes larger than what you normally wear. Pre washing is a great idea to take care of shrinking

** Set in sleeve is preferred, but raglan is OK (that’s the slanted one)

**no hoods or front pockets

**ribbing or band bottom—we will be removing it anyway

**In class we will first “de-construct” your sweatshirt carefully as directed, depending on the style you choose. The neckline and cuff finish changes how you cut things apart, as well as the “patch” version vs the allover version.

*Both versions finish by binding the edges and not adding a lining.

****Patch Version**—Using randomly cut shapes from a variety of fabrics, you will cover your sweatshirt but not completely—your sweatshirt will show between the patches and decorative and quilting stitches

****Allover Version**—Using strips and/or blocks of quilting fabrics, you will stitch fabrics together, cut them apart (just like quilting!) and stitch to the jacket parts, and then do a little allover quilting. You can also choose to use panels and/or orphan blocks to cover the sweatshirt

Also bring:

-Good scissors

-Ruler, Rotary Cutter and Marker

-Fabrics, blocks and/or panels that you wish to use

**Jelly Rolls and Charm Packs are great

-Sewing machine, power cord and foot control with ¼” foot

-Neutral sewing thread and bobbin

-Ripper and Basic Sewing Supplies
