

Scan N Cut

Etching and Embossing Project Class

February 2017 Supply List

- Scan N Cut with power cord
- **USB Stick**
- Turquoise Mat
- Turquoise Blade
- Weeding tool
- Spatula
- Scissors
- Painters Tape
- Embossing Kit **
- Heat embossing gun – optional, but if you have one, please bring it. Do not purchase one just for this class.

** If you own the Embossing Kit, please bring it with you. If possible before class, follow the instructions to calibrate your SNC for region embossing. This process will use the printed sheet that is in the sleeve with the embossing template material and the scanning support sheets.

Please make sure you have updated your firmware to the latest version so you can take advantage of the embossing features.

The cost for the kit will be \$15, payable to Libby at the time of the class.
