STELLAIRE/DREAM HANDS-ON
MARCH, 2022

This class will concentrate on embroidery and Design Center on your machines. We will not actually stitch much—if at all!!—but will do a lot of work on the machine and saving for you to stitch out later.

Bring: Brother Stellaire or Dream Machine with Embroidery Unit
- Power cord and Embroidery Foot
- 5 X 7" Hoop—
- 9 X 14 Hoop—(Just in case!)
- USB for design transfer (please have a fairly "clean" one)
- Fat Quarter of Fabric for a bunny
- Fat Quarter for background—these can by "scraps" if you want but not "busy" fabrics!
- Tear Away Stabilizer   **I will supply fusible web
- Bobbin thread on bobbin
- Embroidery Threads—to co-ordinate with bunny plus a few "spares"

Plans for the class depend on time. For those with the Dream machine I will be sure to demonstrate and have you use the Camera function.

The "phone app" for the Stellaire does not work in our classroom as you would all have to get on our router and connect which would be a mess!
I will try to demonstrate that for you.

Be sure to list any questions you want to ask at the class and I will try to answer
