This is a very fun project. I will also go over how you can personalize your project using the letting function that is already part of your embroidery machine. I will have printed step by step instructions ready for you when you arrive. Please be familiar with the use of your machine. It is suggested that you have taken Embroidery 101 or something similar before this class. It will be helpful if you have cleaned all of the dust bunnies out of your machine; changed to a new needle; and have a new full embroidery bobbin in place.

Any questions, please call me. Deborah Morris, 817-925-8756.
