

Serger Jacket

April 14, 2023

Supplies:

Serger, foot pedal & power cord

Four cones of Serger thread to coordinate with your fabric, or white or black whichever works well with your fabrics. (Please have your Serger threaded before you come to class)

Fabric: Must tear in both directions. Pre wash and dry your fabric before class.

3-4 yards of cotton fabric (for the body of the jacket, I suggest batiks)

1/2 -1 yard of coordinating cotton fabric (for the jacket trim)

Sewing Notions: Fabric Shears, **tape measure**, straight pins, fabric marker (iron off or water soluble), pen to write with, and steam-a-seam 1/4" or 1/2" tape.

The objective of this class is to learn how to construct a garment almost entirely with the serger in a few hours. No pattern is required. You will rip the fabric and serge it. Come join us for a "Rip-Roaring Time". You may call with questions, Deborah Morris, 817-925-8756
