SCAN AND EMBROIDER FLOWERS
Supply List

In this class we will scan a paper copy of the designs to edit, resize and separate, and also work from an SVG file to do the same. You will work with three flower designs, and then we will cut the design parts, and stitch one onto a towel or fabric item of your choice. The samples are on display in the classroom here.

Bring: Scan 'N Cut machine with power cord and accessories
- -Scanning Mat (12 X 12)
- -Fusible Web--Heat N Bond Lite or Steam A Seam II Lite
- -Small pieces of fabric for flower parts and leaves--and you are also welcome to dig in our scrap bin--greens, reds, yellow, orange, & blue
- -Embroidery threads and embroidery bobbin
- -USB for design files
- -Towel (or fabric item)--we sell toweling and finished towels here
- -Embroidery Machine with power cord, embroidery foot, embroidery unit and large hoop (6 X 10 minimum)
- -Tearaway stabilizer--fusible or non

$5 charge for the embroidery designs to be paid at the class (copyright)
