

BINDING BASICS

Supply List

Bring a project that is "unfinished" for ideas about binding, (we will not stitch on your project but just analyze it) or just come with questions. In this class you will work on "samples" to take home with different steps and techniques. We will work on straight and bias binding from cutting to completion, as well as corners (mitering) and finishing. Other options to use with binding will also be demonstrated or discussed.

Bring: Sewing machine with power cord and foot control

- 1/4" foot
- regular sewing foot
- walking foot if available
- neutral cotton thread
- rotary cutter
- ruler (24" preferred)
- scissors, ripper, pins and basic sewing supplies

Fabrics: 2 fat quarters or 18" X 22" pieces of fabric

Other supplies will be provided at the class
