

PFAFF/OR VIKING /OR JANOME FEET CLASS

Supply List

Check the date for your machine brand!!

For different machine brands, the classes are brand specific but the supply list is the same! I will have several feet that do not come with the machines for you to try in the class, but the main focus of the class is knowing about your included accessories.

Bring: Machine with power cord and foot control

- Accessory tray/box with all of your included feet
- Any extra feet that you have purchased
- Thread and bobbin to match--cotton such as Aurifil is great
- Scissors and seam ripper
- Washable or Heat Away marker
- Small ruler
- Good machine needle (80/12 universal is great)
- Screwdriver

Fabrics, decorative threads and stabilizers will be provided at the class, as well as some basic handouts.

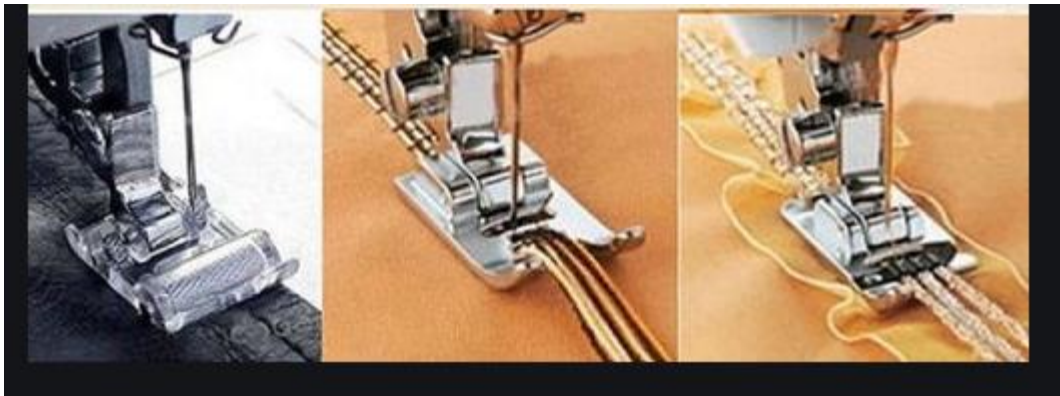

Photo here shows a few “extra” feet that I like to share!
