

## Lettering & Monogramming Family

### BES® Embroidery Lettering Software 3

Lettering, monogramming, customization and appliqué functionality for all skill levels.

#### Advanced customizing and editing features

- Over 190 built-in fonts, including appliqué and fancy fonts, as well as script styles, run stitch styles, decorative fonts and gradient fills.
- Over 375 built-in, resizable designs, including frames, border accents, appliqué shapes and enhanced monogram accents.
- Merge decorative embroidery designs with lettering to create sophisticated designs.
- Easily edit the height, width, kerning, shape, rotation and stitch pattern of the 5 built-in text styles.
- Batch convert allows for easy file type conversions.
- Embroider with confidence using the 'Auto Baste' function.
- Compatible with ScanNCut: open appliqué designs, select the appliqué segment – print actual size, scan and cut with the Brother ScanNCut. Embroider and appliqué with confidence!

#### Enhanced user-friendly interface

- Autosave lettering creations in working format so you can edit the design at a later time.
- Ability to have multiple design windows open so designs can be easily copied, pasted and combined, all at once.
- Create different names with the same design and layout using the 'Name Drop' feature.
- Large, intuitive icons make for easy navigation.
- Built-in help and enhanced reference tools.
- Editing capabilities include spell check and color change of individual letters.
- Unlimited 'Undo' and 'Redo' options.

# SOFTWARE LETTERING & MONOGRAMMING FAMILY

## BES® Monogramming Suite Software

The ideal choice for the beginner and advanced embroiderers who want it all.

### Exceptional customizing and editing capabilities

- Over 60 built-in fonts along with 120+ built-in appliqué, border and frame patterns and 137 built-in decorative designs.
- 'Monogram Designer Wizard' helps you get started.
- Edit the height, width, letter slant, or scale to available design area, and choose from hundreds of fill patterns to customize your monograms.
- Stitch recipes for stitches/fabric/stabilizer combinations.
- Eliminate jump stitches with 'Auto Trim'.
- 'Color Sort' feature eliminates unnecessary thread changes.
- Select background color, and preview your design.
- Compatible with virtually any embroidery machine.

### User-friendly and intuitive interface

- Quickly identify program functions with intuitive icons.
- Grid capabilities for accurate placement of designs.
- Realistic 3D preview for perfect thread and fabric viewing.
- Ruler, zoom and pan tools easily function with monogramming.
- Make changes on the fly with drag and drop capability in multiple windows.
- Arrange design tools for quick and easy access on your customized design page.
