

10 Minute Table Runner

provided by our Bremerton store

You will need:

1/3 yard of focus fabric

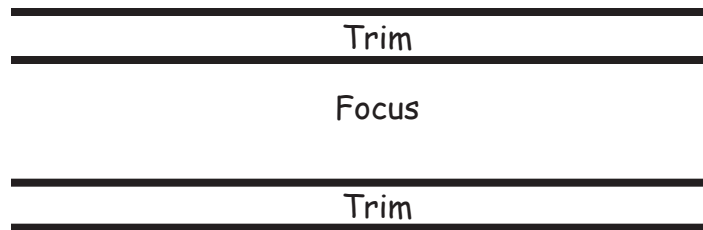

1/2 yard of fabric for backing/trim

All seam allowances are 1/4"

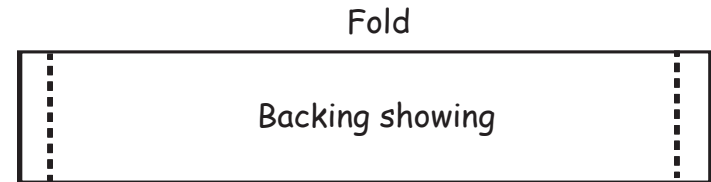

1. With right sides together, sew the 1/3 yd piece of focus fabric to the 1/2 yard piece of backing/trim fabric along the long edges making a 'tube' of fabric.

2. Turn the 'tube' right sides out and press from the focus side so that you have even borders of the backing/trim showing on either side of the focus fabric.

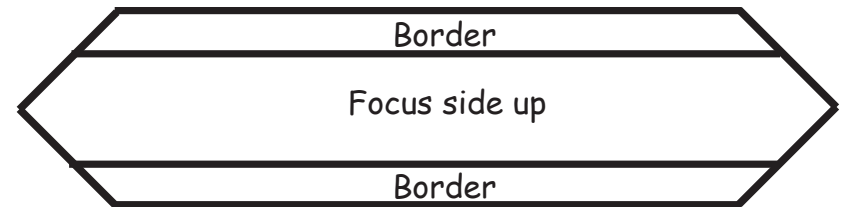

3. Next, fold each end of your tube in half with the focus fabric on the inside and the backing fabric on the outside and sew across each short end.

Focus Fabric inside

4. Open out each sewn end so that it becomes a point. Now turn your runner focus fabric side up, press to 'sharpen' the points on the ends of your runner and you're done!

- This runner makes a great holiday gift, door prize or hostess gift.
- It is quick and easy enough for a beginner or young person to make, too.
- Consider making one for every season!
