

Autumn Leaves Burlap Runner

Designed by Wendy Prather of our Northgate store

Supplies:

20 inches by 60 inches of burlap

4 yards of ½ inch wide ribbon

3 cotton fat quarters

1 ½ yards Ultra Heat-n-Bond

Pull one strand the full width of the burlap to straighten out both sides. Mark the burlap 2 inches from the edges all the way around. Sew the ribbon onto the burlap, following the marks.

Iron the fat quarters onto the Heat-n-Bond. Trace a leaf pattern onto the Heat-n-Bond. You will need 4 leaves of each color. Cut them out, and peel the paper off the back. Arrange the leaves in a serpentine down the length of the runner, over-lapping them as you go. Press the leaves onto the burlap, making sure they are adhered well.

Enjoy!
