

Embroidery Hoop Wall Organizer

Supplies:

14 inch Wood embroidery hoop

3 Fat Quarters (or Fabric Scraps measuring 18 x20 inches)

15 x 15 inch piece of Felt

Fabric Glue

Instructions:

Fold one fabric piece in half so that it measures 9"high by 20" wide

Cut another fabric piece 14" x 20", fold it in half to measure 7" x 20"

Place this piece over the first with the fold side facing up and about 2" from the fold of the first fabric.

Using a disappearing marker, measure and draw vertical lines for pocket stitching about 3 inches apart, through both layers.

Lay this stitched pocket unit on the 3rd piece of fabric so the fold is 9 inches from the top, forming another pocket.

Place the whole organizer unit into the wood embroidery hoop and tighten to secure.

On the back side, trim the excess fabric away leaving about 1 inch all the way around the hoop.

Use a needle and thread to sew a gathering stitch through the remaining fabric on the back side. Pull tightly to keep fabric to the back of the hoop.

Cut a piece of felt to fit over the back side of the hoop organizer and glue it in place.

Hang it up over a desk or sewing table to store tools for easy access while working.
