

# Infinity Scarf for Seahawk Fans

Designed by Anna-Beth at our Northgate store

**We will love our Seahawks  
for INFINITY!!**

## What You'll Need

- 12" each of two lightweight knits (Anna-Beth used athletic mesh but any drapey knits around 58" wide will do.)
- Sewing machine
- Thread to match one of your colors
- Pins
- Rotary cutter and mat and ruler or nice sharp fabric scissors

## How to Make

1. Lay your pieces right sides together and trim the long sides so they are just the same width.
2. Using about a ½"-wide seam allowance, sew up both of the long sides.

3. Turn right side out.
4. Trim both of the raw ends so they are exactly the same length.

5. With right sides together, match up the edges of the knit that does not match your thread color. Pin at the seams. Sew that side together. When you reach the seam, keep sewing, taking care not to catch the scarf in your seam. When it becomes difficult to go further without catching the scarf, stop. You will have a small gap. Fold the seam allowances under and, using the matching thread, whipstitch the gap closed (as shown at right).
6. Loop it around your neck a couple times, and look glamorous while you cheer on your favorite football team! **Woot!!**
