

Phoomph 3-sided Trees

Supplies:

Phoomph Stiff
Crushed velvet and/or felt
Fabric
Ribbon
Pen
Scissors
Hot glue
Pearl or rhinestone
embellishments

Instructions:

1. Cover Phoomph with fabric/felt on one side, trace the tree template on the paper backing (marking the central line) and cut out 3 trees of the same size with scissors.
2. Create a shallow cut in the paper backing along the central line and peel away half of the paper backing from two trees, align the exposed halves and stick together. Peel away the remaining paper backing from one of the two joined trees and half the backing from the third tree. Align and stick together.
3. Fold a length of ribbon in half and stick the ends to the treetops to create a hanger for the ornament. Hot glue in place to secure.
4. Peel the remaining paper backing from the trees, align and stick together to form the 3-sided ornament.
5. Add embellishments as desired to complete the ornaments.
