

Re-Purposed Men's Shirt Pillow

Designed by Pat Baron for Pacific Fabrics & Crafts

Materials & Tools Needed:

One of Your Favorite Men's Button Down Shirts
(worn out, of course!)
12" - 16" Pillow Form
(depending on size desired)
Matching thread

Instructions:

Press the shirt flat.

Starting 2 inches above the front pockets, mark a square the size of your pillow form (i.e. 12, 14, 16, inches), plus 5/8 inch seam allowances all around.

Pin the front and back of your shirt together and cut out the marked square.

With right sides together, sew around your square using a 5/8 inch seam allowance.

Trim the corners and unbutton your shirt to turn it right side out.

Insert your pillow form and button up your pillow!

Hints From Pat:

Try making a coordinating fabric hankie for one of the pockets. Cute and quick! This is a great way to make a memory with very little effort or expense! My daughter makes a wonderful man's shirt and I have used some of the worn out shirts for my pillows.
