

Coaches Info

North Summit Recreation has always relied on parents to assist in coaching the youth in our programs. In most programs all we ask is that you are willing to be positive, helpful and willing to give some your time to help kids, after all these are your kids.

For basketball we expect you to be able to attend the Saturday games and if you cannot make the game it is up to you to talk to one of the other parents of the kids on your team and see if they could fill in. Practice for kids up to 2nd grade is structured into the program prior to games. The older kids grades 3-8 will require practice when possible, but the recreation district did not pre-establish dates to make the coaching experiences less cumbersome. The recreation district has contacted the school district and below is a list of approved open gym times. We understand schedules are difficult to align and with limited gyms it is difficult to arrange a time to practice, which in the end practice is good, but not required.

We are looking for help from parents to step up and support your children, these programs would not operate without you and the district cannot provide for all the needs of coaching. Each coach will receive a folder containing a rule book for that division, player contact list and schedules.

When you register please sign up to coach, even if you can only assist it would be helpful for the teams, the program and most of the kids.

Thank You.
