Good Afternoon!

11/28/2017

We appreciate your business, and would like to ask for your assistance in sending out some reminders to the residents within your city.

As the weather starts getting colder, our drivers have noticed that several residents have been putting ashes from fireplaces into their trash cans. Please remind residents that ashes should **NEVER** be placed in any waste or recycling container. Even if it seems like the ashes have burned out, they can possibly re-light as a container is dumped and exposed to the wind and air. This is a huge concern for us, as it could potentially cause serious damage to our equipment and can put our drivers in danger.

We've also been seeing a lot of containers that are overloaded, and a lot of extra trash and boxes piled on or around the containers. If the lid on a container is open more than 2 inches, it is considered overloaded. Dumping overloaded containers causes messes that our drivers do not have time to clean up. It is also difficult to grab a container that is surrounded by excess waste and boxes without making a mess as well. We would like to help keep your city as clean and sanitary as possible, so please let residents know that if their waste does not fit into their container, we politely ask that they contact the City to order another one.

We will be closed on Monday, December 25th for Christmas, and Monday, January 1st for New Years. During both weeks, we will be running **one day behind** for trash and recycling. For example, if a resident's regular pick up day is Wednesday, they will be picked up on Thursday instead for both of those weeks. We will continue to haul normally starting on Monday, January 8th.

Thank you for your assistance in sending out these few reminders! We sincerely appreciate your business and support for our company throughout the years. If you have questions, please feel free to contact our office.

We wish you and your families the very happiest of Holidays!

Cordially,

The Econo Waste Team
