for the newest Anita's University class!

GREAT NEWS! We had such an amazing response from our 501: In the Hoop class that we are continuing the education and fun with 502: In the Hoop III! If you have taken the 501 class then you know you want to keep it going with 502! If you haven't taken 501, then have no fear – now is your chance to get in the hoop! Just like the other classes in Anita's University, it is not a prerequisite that you take one before the other.

- ✓ **Designs** on a USB stick
- ✓ Full color **3-ring binder**
- ✓ **BRAND NEW** educational videos on your USB!
- ✓ **Win prizes** & shop Anita Goodesign products!
- ✓ **Advanced knowledge** of in the hoop projects!

Get in the hoop!

The projects you can create after taking this class will keep you thinking outside the hoop! You'll see how we create our popular door décor designs, zippered bags with the landscape technique, unique toppers for towels, and a freestanding notions pocket. Want to know more? We thought so! You'll also see the magic behind creating fun magnets, doilies, embroidered wreaths, and even fun designs for the furry friends in your life – your pets!

Just like the other University classes, you'll receive a binder with tons of tutorials and education and, of course, your USB with all of the designs – enough to make you flip your hoop! For the **FIRST TIME EVER**, on that USB will be exclusive, never before seen videos. The videos will be on topics like using Burmilana threads, our fan favorite tips and tricks on things like hooping, interfacing, and notions, dolling up your doilies and sew much more – your hoop will flip again!
