

NOTE: This is a cover for masks. Medical masks have to meet certain FDA approved requirements in order to adequately protect the healthcare provider. This mask does not contain a sleeve. It is designed to offer complete coverage of a N95 or similar protective device. The cover is a temporary solution to a pandemic related shortage of approved safety devices.

Fabric Requirements: Use 1/4 Yard of outer fabric and 1/4 Yard of lining. If you choose to use a laminated fabric, please line with a cotton woven. 1/4 Yard of 45" fabric yields 3 finished mask covers or mask cover linings. (Do not line with laminated fabric.)

Elastic: 2 - 7" pieces of 1/4" wide elastic

Or, 4 - 15" pieces of twill tape, ribbon or bias tape

Cut 2 of outer fabric. Grain is important.  
Cut 2 of lining fabric. Grain is important.

1/4" seam allowances are included.
