

Can I make an entire department (such as fabric) eligible to accumulate volume in our customer rewards program?

Yes, you can make all items in a particular department eligible for volume accumulations via a Mass Edit. Note that this will only affect products CURRENTLY in that department, so if you later add more products to that department, you will need to do this again.

- 1) In Edit POS Products, do a search for all items in that department (via Quick Search or Complex Search).
- 2) Click "Mass Edit". Click "Ok" on the instructions screen. Select the clerk if prompted.
- 3) On the screen with all the fields, check the box labeled "Accumulates Volume?", so that it has a black checkmark instead of a gray one. Don't click on any other fields or checkboxes.
- 4) Click "Update".

That should do it.
