

The MT2070 scanner is the black colored inventory scanner. This article will provide a link to the documentation on how to take inventory with this scanner.

If you have the MT2070 black inventory scanner then you can view the documentation that explains how to use and take inventory with this scanner at the following link:

https://media.rainpos.com/6267/mt2070_manual_rev_2013_12_20.pdf

If you have the P460 inventory scanner (cream or gray colored scanner), please see the Knowledge Base article titled “Taking Inventory with the P460 Scanner.”
