_____ Hour X \$15/Hour **Labor Cost** = _____

Generally my time from intake to completion of a quilt is about 4 weeks . I put customer quilts in the order of receiving them. I must have the quilt in hand to put the customer name on the list. I do not hold places or spots "in line".

Effective May 1, 2018 any quilt that requires a "bump up" ahead of other customer quilts for completion to meet a customers date will incur a 25% additional cost on all labor charges including quilting, piece work and binding.

Christmas cut off date is October 31 for guaranteed Christmas completion and no rush charge.
