Mayor called the Town Board meeting to order at 7:05.

Because we did not have a quorum, we decided to forego reading any minutes or bills until they could be officially approved.

We briefly discussed selling the town lot on Main Street, putting the small tractor up for bid, and possibly selling the existing snack bar building near the Fair grounds. We have owned the lot for a long time and never been able to use it for anything but pasture lease, we have replaced the tractor with a new one, and received a \$40,000 grant from the tourism board of the county to replace the concession stands. We made no decisions on these matters, but will do some investigating about how to get each project started.

We looked at the annexation maps and agreed they looked correct so we will get final copies made of them.

We discussed the Christmas party and Sub for Santa and thought both went well. The candy amounts were just about right this year.

Melanie had heard many good comments about the solar lighting on the bridge. We will, most likely, buy some more of those style lights.

Melanie made the motion to be dismissed at 8:05
