Fabric Bowl Covers Tutorial

Learn how to make pretty **fabric bowl covers** to protect your food as an alternative to plastic wrap. A great housewarming present or any occasion gift.

Active Time

30 minutes

Total Time

30 minutes

Difficulty

easy

Estimated Cost

\$10

Materials

- Cotton fabric - I used three fat quarters but depending on the size of your bowls you may not even need that much.
- 1/4 inch elastic cord
- Coordinating thread
- small safety pin

Tools

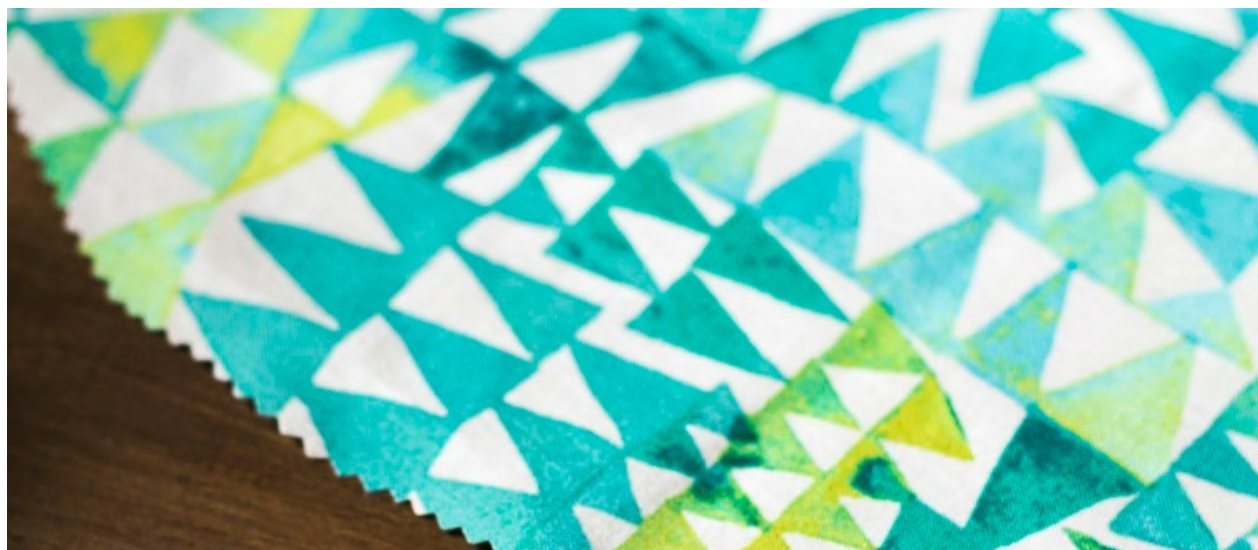

- sewing machine
- scissors
- pinking shears
- tape measure or ruler
- pencil
- iron

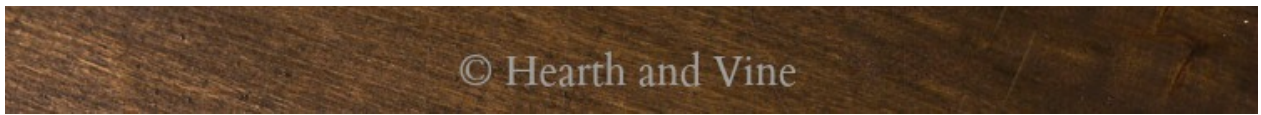

Instructions

1. Place your bowl upside down on the wrong side of the fabric. Trace 2 inches out from the bowl with a pencil.

2. Cut with pinking shears to prevent the edges from fraying. Another option is to use an overcast stitch instead of pinking shears.

3. Fold over the finished edge 1/2 inch and sew, leaving a 2-inch opening at the end.

4. Cut a piece of elastic cord about 5 inches smaller than the circumference of your bowl. Then attach a small safety pin to one end of the elastic.

all the way through, remove the safety pin, and sew the ends of the elastic together on the machine, or by hand.

6. Finish by hand stitching the opening closed.

Notes

It's always best to wash and iron your fabrics before making and projects with them.
