

Sacred Geometry Block of the Month

65" x 77"

Welcome to this very unique project that explores the way we use numbers, shapes, color and images in quilting. Each block — along with full color instructions — will feature a story of the importance and significance of the block along with an inspiration drawing to nudge your own creativity.

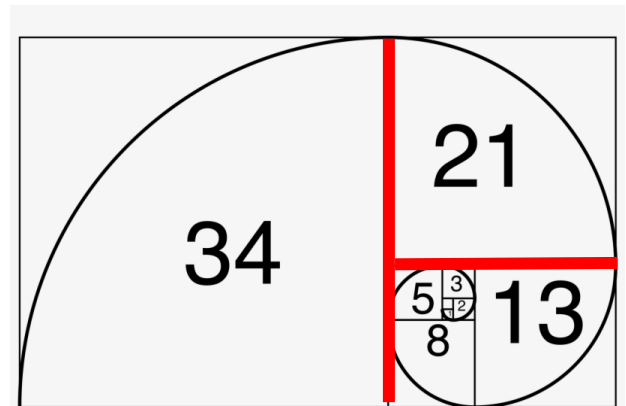

To get started, here are the fabric requirements.

- 8 yards solid black (background)
- 4 yards black with white print (curve)
- 1 FQ each of the 12 colors in the colorwheel
- Assorted black & white prints 1/8 yard or so of each
- 1/2 yard teal for the inner border
- 3/4 yards light blue violet
- 3/4 yard dark blue violet
- 1/2 yard dark blue for binding
- 1/2 yard bright yellow

The quilt is made in 3 parts based on the Fibonacci spiral) shown at right) or the Golden Mean.

1. Part 1 (the small rectangle with the numbers 5, 8, 13) includes blocks 1, 2, and 3.
2. Part 2 (the square with the number 21) includes the large signature mandala created to symbolize all the elements in the quilt.
3. Part 3 (the large square with the number 34) includes blocks 4-8, plus the flower of life block.

You will receive 1 pattern per month for 10 months. Some months will just be a block and some months will include portions of the background. It will make more sense — I hope — once we get started.

Your first block and story will arrive March 15. Thank you for joining me on this strange and wonderful journey.
