ELK RIDGE BUGLE

JUNE 2018

FIRE DEPARTMENT MESSAGE

I want to thank everyone for being so vigilant with regards to fire and other issues. We really don't mind responding and finding minimal issues. We would rather be safe than sorry and stay on top of any potential issues. The rainy spring we have had means that we are going to have high, dry weeds around the city very soon. We ask that everyone do the best they can to keep the weeds cut back and help us reduce the potential risk of roadside issues as the summer gets hotter and drier. For those residents with natural scrub oak in their landscaping, it is also good to keep the dead cut out, lower branches trimmed up, and the area frequently watered. This will minimize additional dry landscaping areas close to the structure. We have had recent lightning strikes and thunder storms. I want to remind everyone that lightning is the highest natural killer in Utah. It is never a good idea to be outside in a lightning storm. If you don't have to be outside, take shelter and wait for the storm to pass. I look forward to the city celebration coming up on June 22nd and hope to see everyone come and support the Fire Department. Stay safe this summer no matter where you go or what you are doing.

Stay safe!!
 Seth Waite
 Fire Chief ERFD
