FROM THE MAYOR'S DESK...

WATER: Please read the enclosed water conservation actions proposed by Weber Basin Water. It looks bleak for water this year. Start thinking how you can help save water.

COVID 19: At the Weber Area Council of Government meeting on Mar.7th, Weber Morgan Health provided information that we had the lowest number of cases in 18 months. Please continue to take the steps you feel are needed to keep you and your family safe.

Traffic: With the time change and the weather warming up please slow down and watch for pedestrians.

EASTER EGG HUNT: The easter egg hunt is back on!! Thanks to Council Member Roberts.

BUDGET: We are starting to formulate the FY 2022 -2023 budget.
If you have or would like to have input, contact myself or a member of the city council.

THANKS FOR MAKING UINTAH GREAT

- Gordon Cutler

CITY COUNCILOR BELL

CULINARY WATER

With current conditions, water restrictions are already a hot topic across our State. We purchase all our water (indoor & outdoor) from Weber Basin Water district. They have begun the conversation and outlined what they plan on proposing as water restrictions and contract reductions to its customers. The recommended reductions currently include a **60% reduction in water available for outdoor irrigation of**

lawns and gardens (both culinary and secondary), a 40% reduction for agricultural use, and a 10% reduction for culinary indoor use. These restriction and reductions will directly effect each one of us. Please begin to plan and anticipate for these restrictions as we draw closer to warmer months.

Suggested actions from Weber Basin:

For Sprinklers:

- ✓ Find and eliminate waste of any kind. Detect and fix leaks as soon as possible.
- ✓ All homeowners should educate themselves on how to run and maintain their sprinkler system. Weber Basin has resources online as well as a recorded class on irrigation available on their website.

Landscaping:

- ✓ For the immediate future, hold off on new landscaping projects as establishing new plants uses more water than mature plants with deep roots.
- ✓ Learn about how to maintain your landscape by attending any of Weber Basin's free classes.
- ✓ Keep turf mowed to 3 inches tall, mowing frequently enough to avoid cutting more than one-third of the total grass height.
- ✓ Don't hose off hard surfaces.
- ✓ Limit car washing.

Continue indoor water conservation practices:

- ✓ Shorter showers.
- ✓ Fix any leaks.
- ✓ Wait to run dishwasher until it's full

Councilor Bell continued...

If you live in Cottonwood estates, discuss importance of water conservation with property owners, community, etc. and encourage ordinances and policies that accommodate and encourage sustainable landscapes.
