FROM THE MAYOR'S DESK...

Adams Ave. Bridge Deck Replacement The work on the bridge is scheduled to be completed by the start of the new year. The latest information we have is that the work is on schedule. Please be careful and obey the traffic lights. (If you can figure them out.)

Getting Darker Earlier Please be on the lookout for pedestrians walking in the city. Be mindful of the law of needing to stop and not pass school buses.

ELECTIONS Ballots should be sent out before the end of the month. Contact the candidates and find out their stands on the issues. Please ask questions such as--- why are they running, what are the most important issues regarding the city and what they would do to address these issues, and what their involvement in the city has been. Also ask questions about things that are important to you!

WATER TANKS the tanks have been finished. We are on track to remove the moratorium by the end of the month. We have several developers waiting to start. In the next few years, I expect the character Of Uintah to change.

THANKS to Council Member Bell for her hard work in the water department.

HAILS and FAREWELLS Please welcome Brindy Woodbury as the utility clerk. Stop by the office and say hi.

As always THANK YOU for all you do to make Uintah a great place to live.

Gordon Cutler

CITY COUNCILOR BELL

WATER DEPARTMENT

I was invited to speak to the EPA about Uintah City's latest water tank project at the National Rural Water Association WaterPro Conference in Aurora, Colorado. Uintah was highlighted as a national success story having a water department using thoughtful planning and the utilization of federal and local funds to complete such a large project.

What a wonderful experience and community of people from across the nation. You will not find a group of people more dedicated to their job and focused on what they can do to better serve their communities. Clean and safe drinking water does not just happen, be sure to thank your local public works staff!

I am happy to report that both water tanks have received their operating permits from the State and are online, currently holding and delivering water to Uintah. In the next month, the crew will be finishing the project by hauling dirt back to site, burying the tanks and grading the hillside. This project will be completed on time and under budget. I would like to thank all who participated in this project, especially those on the citizen water panel who contributed to the initial planning and decision-making process.

NEW EMPLOYEE

We would like to welcome Brindy Woodbury as the Utility Clerk! We are so excited to have her as part of the City Staff.

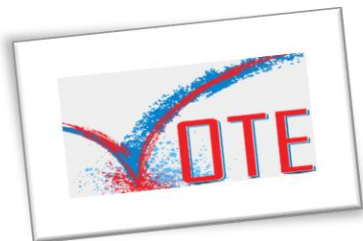

Thank you,

Kristi Bell

ELECTION CANDIDATES

Each Candidate was asked to submit a short bio for residents to get to know them.

(Candidates who submitted a bio are included below)

ROBERT GUILLER

My name is Robert Guillier. I am the pastor of Crossroads church in Uintah. I have had the privilege of living in Uintah for the last 14 years. I have served on the planning commission for the last 7 years and have had the privilege of serving as the chair of the PC for the last four years. I have a heart to support and serve our community in whatever capacity best serves our whole community. A personal passion of mine is to help every community member know that their voice matters and my heart's desire and commitment is to serve every member of our community.

DANIEL COMBE

As a resident and business owner in our great city of Uintah, my ties and love for our community grow with every passing day. Over the last four years, I have been an alternate Uintah City Planning Commission member keeping up to date with current projects and agenda items. I have been actively attending Uintah City Council meetings for the past 5 years. At many of the council meetings, I have been the only resident in attendance. I have found our current city council to be honorable and trustworthy. I would like to be part of Uintah City's legacy by being a community representative and helping in any way I can. With current concerns about Highway 89, growth, and state encroachment on municipalities, I feel that I would be a beneficial asset for the community and its citizens.
