

Figure 1: Fire Department Calls for Service

Resource: Weber Area Consolidated Dispatch

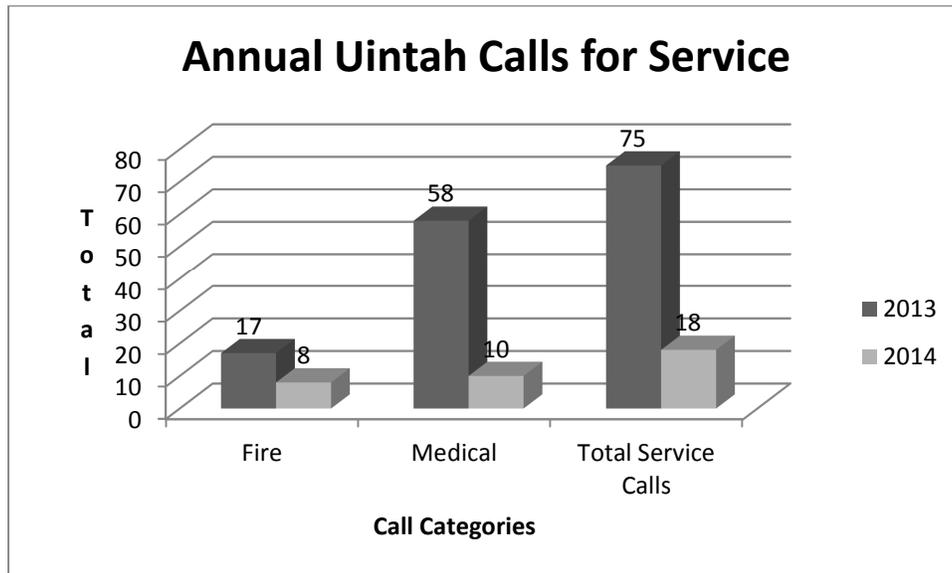

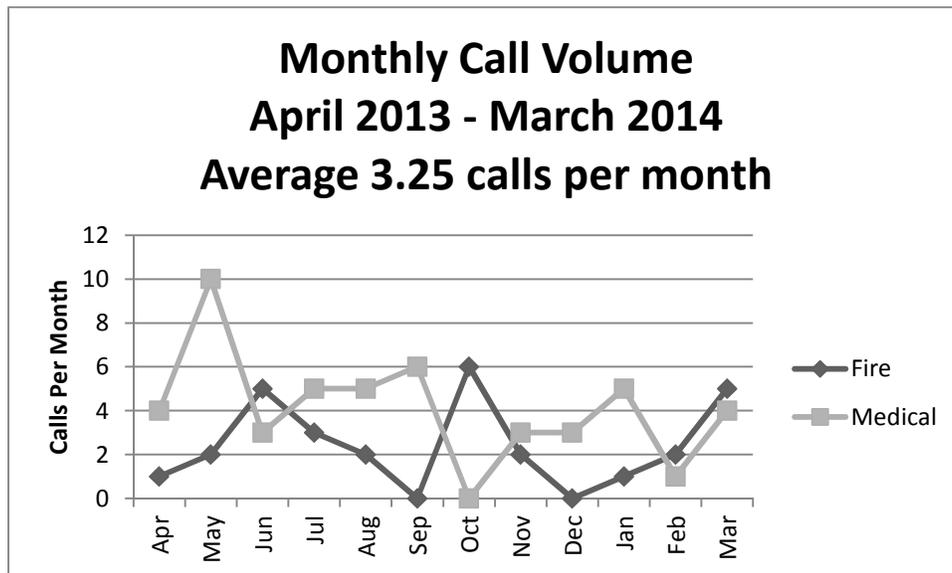

Figure 1 shows the total calls for service for 2013. Please note that 2014 is the call volume for January through March of this calendar year

Figure 2: Monthly Call Volume Longitudinal

Resource: Weber Area Consolidated Dispatch

The trend indicated in Figure 2, shows call volume since April 2013. Fire and EMS related incidents pose an unreliable variable for future statistical planning.

Figure 3: Monthly Medical Call Volume

Resource: Weber Area Consolidated Dispatch

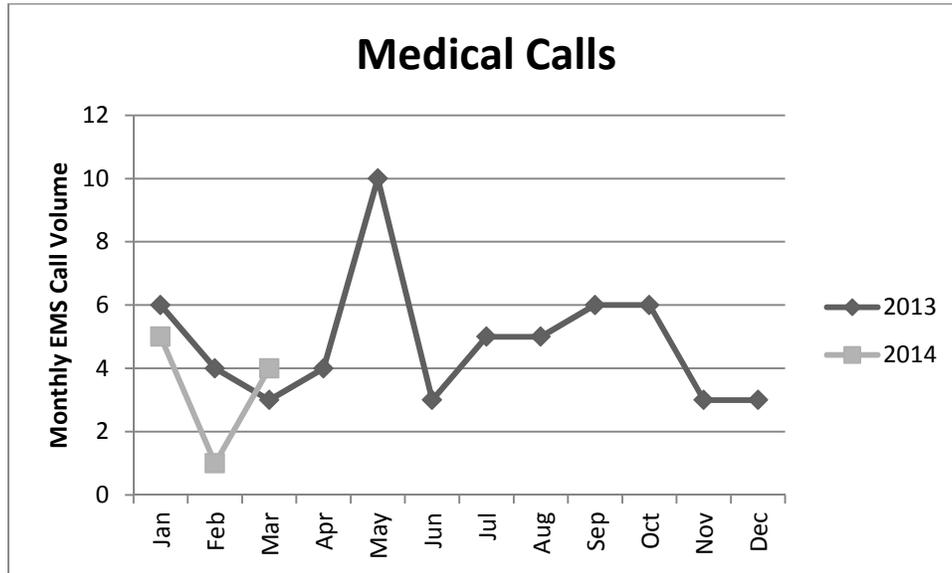

Figure 3 Monthly EMS calls 2013, and January - March 2014.

Figure 4: First Responder Medical Call Response

Resource: Weber Area Consolidated Dispatch

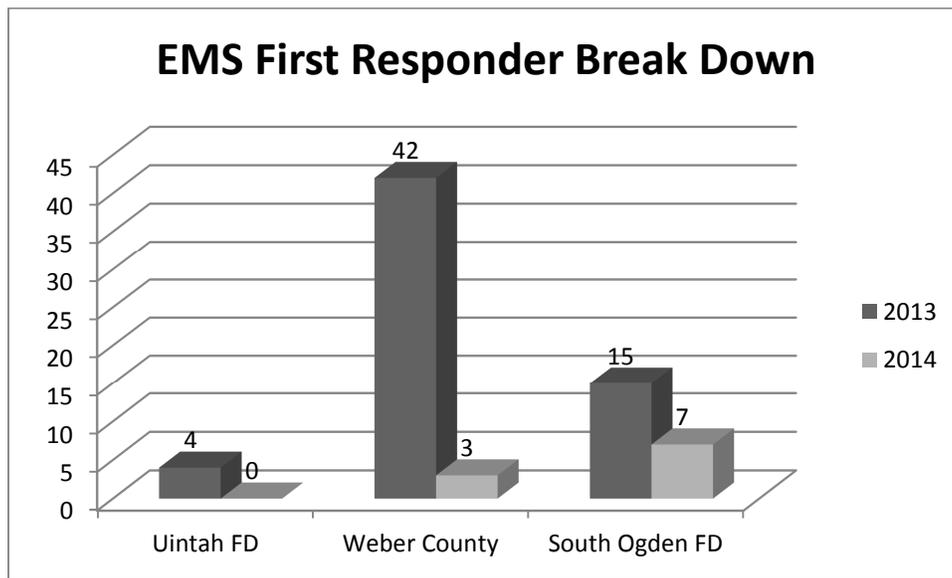

Figure 4 shows the First Responder Calls response, broken down by responding agency.¹

¹ Weber County Fire District is currently contracted to provide this service to Uintah City.

⁴ Budget accounting is dependent on reporting from City to Department and may not include expenditures that have not been processed yet. Information provided is the most current information provided to the Department. For more current information contact the City Recorder.

APPARATUS STATUS

ENGINE 91

Status: **IN SERVICE**

First Due Engine

1999 Pierce - 1000 Gallon Tank/ 1250 GPM Pump

Recent Issues Addressed

- Permanently Installed Wheel Chock
- Repacked and lubricated Pump Recirculation Valve
- Floor control switch for windup siren replaced, rewired and operational

Immediate Maintenance Issues

- Tank to pump valve is leaking, will need replacement
- Engine is due for preventative maintenance servicing (oil change, etc)

Future Issues / Foreseeable Needs to Address

- Current Scene Lighting is a 15 watt halogen light, in which the switch/fuse keeps burning out. Light head will need to be replaced with at least 20 watt light head.
- Engine 91 needs a battery charging system installed, along with a shore line power supply so that electronic equipment (i.e. flashlights, radios) can be charged while the vehicle is not in operation thus draining the battery and in turn leaving serviceable equipment on the fire ground.

BRUSH 91

Status: **IN SERVICE**

Light Brush Truck

2000 Ford F-340 - 250 gallon tank / Brush Pump

Recent Issues Addressed

- None

Immediate Maintenance Issues

- Vehicle speedometer is not functioning. Trouble shooting issues in house.
- Engine is due for preventative maintenance servicing (oil change, etc)

Future Issues / Foreseeable Needs to Address

- Scene lighting needs to be installed on the truck for night operations

BRUSH 92

Status:

IN SERVICE

Heavy Brush Truck

1970 AM General M35A2 - 1000 gallon tank/ Brush Pump

Recent Issues Addressed

- Installed two way valve to allow tank to be filled from fire hydrant as well as more rapid release of water for portable water source operations
- Rebuilt Brush Pump Carburetor

Immediate Maintenance Issues

- Engine is due for preventative maintenance servicing (oil change, etc)

Future Issues / Foreseeable Needs to Address

- The brush pump installed on this heavy brush is inadequate for the movement of the 1000 gallons of water the truck carries. The pump engine is also aging, and will need to be replaced.
- The vehicle needs a headset/intercom system installed. When the vehicle is on, with the elevated muffler (at cab level) it is impossible to communicate within the cab or communicate on the radio – this is an OSHA hearing protection issue, as well as a communications/safety issue.
- Vehicle requires scene lighting to be installed for night operations.

STATUS OF SIGNIFICANT ISSUES DEPARTMENT IS ADDRESSING

- The Department continues to provide information with and attend meetings of the Weber County Fire-Subcommittee.
- The Department has been invited and begun attending Weber County Dispatch Operations Board committee meetings, which is attended by all public safety department heads in the county.
- The Department also provides information with and attends meeting with the Weber County Fire Officers Association.
- The Department has submitted a Federal FOIA request to FEMA for the peer review information regarding our failed FEMA AFG/SAFER grant (recruiting/retention grant) to determine where the weaknesses of our application existed. This request is still outstanding.

- The Department continues to prepare the Application and Self-Audit requirements for submitting our request to become accredited with the Utah Fire and Rescue Academy to teach and certify non-affiliated members (thus creating an income revenue stream for the department).
