

Mondo Bag Supply List

Mondo Bag (or Midi Bag) pattern and fusible interfacing.

Fabric Requirements:

Bag Outside:

The bag is made of 2½” squares. There are several options for creating the squares:

- The pattern calls for 15 strips 2½” x width of fabric (WOF). 2 of these strips will be used for the handles, the remainder will be cut into 2 ½” squares for the bag outside.
- There are 208 total 2 ½” x 2 ½” squares used in the bag so if you want to use all the little squares from your stash, you can look at this number, and bring that many different squares if you want.

Bag and Handle Lining:

- 1¼ yard of fabric that coordinates with your squares

Fusible Fleece

- 1¼ yard

Please come to class with all of your 2 ½” squares cut out, so we can maximize class time for the assembly of the bag.

Other items needed:

Applique pressing sheet OR Parchment Paper (like you use for cooking)

Sewing machine

Basic sewing supplies: pins, scissors, thread that coordinates with your fabrics.

Long ruler

Rotary Cutter
