

The Quilt Peddler LLC – Virtual Handi Quilter Educational Event

December 11, 12, 2020.

Hi, let's try something new! The Quilt Peddler is having a Handi Quilter educational event in your home or at the shop. The educator will be with us via zoom. We will have live and taped presentations. We will have Specials in the shop during the event. This event is in time for you to get the juices going and plan for your own Christmas gift. Don't worry about the weather or Covid; if you have a computer and internet in your home you can join us. Our educator for the event is Gail Berry-Graham from Canada.

You do not have to own a long arm machine to benefit from the classes. Are you looking to purchase a long arm? Great specials on floor models and new machines. Discounts on accessories.

Gail Berry-Graham

Never one to back down from a challenge, it took Gail over 25 years to finish her first quilt. She took a day long quilting class back in the 80's and left the class frustrated, broke and with an unfinished quilt top and no real support to finish it. Flash forward 25 years, and Gail decided to try enter the world of quilting again. She purchased a kitted wall hanging and hasn't looked back!

Her love for longarming started almost immediately. She finished a quilt top and rented time on a Handi Quilter from her local shop. She knew right then and there, that this was what she wanted to do. She purchased her first Handi Quilter with Pro-Stitcher™ and immediately set to work finishing quilts for herself and others.

Now Gail shares her passion for quilting with students from around the world, she has taught in Australia and Europe, as well as across much of Canada and the USA. She currently uses both HQ Capri™ and HQ Amara™ with Pro-Stitcher Premium, and she creates designs with Pro-Stitcher Designer, and embraces both computerized and free motion quilting.

December 11, 2020 – 10 am to 12 pm

Class 2-A – Building a Free-Motion Quilting Design Library

Class Description: Building a library of free-motion quilting designs is fun – and it's easier than you think! By exploring different designs - from simple blocks to an all-over design – you can create designs that can be used to complete any quilt. Learn how drawing a simple shape and then connecting it or just using a part of it can make finishing your quilts fast and fun.

Topics Include: • Develop a library of free-motion designs

- How to plan out a quilting path
- Exploring different designs based on a basic shape
- Adjusting your quilting path to create your own new designs
- Using a grid to layout your quilting design

December 11, 2020 – 1:30 to 3:30 pm

Class 4-B – I Can Quilt ANYTHING on My Longarm!

Class Description: Have you ever wanted to see what long-arm can really do? It's just a big sewing machine – you can do all kinds of projects on your long-arm! Everything from piecing, doing a project from start to finish, and adding texture to unique fabrics can all be accomplished on a long-arm. With great tips and quick projects, this class will give you lots of great ideas for your next project.

- Topics Include:**
- Piecing on the frame – square foot
 - Binding on the frame
 - Using couching to add texture and definition
 - Make a small bag from start to finish
 - Project show and tell

December 12, 2020 – 10 am to 12 pm

Class 3-A – What's New at Handi Quilter?

Class Description: Handi Quilter is always coming up with new fun ways to help you be the very best quilter! In this show and tell style class, we'll play with all the latest gadgets, rulers, and feet and show you how to incorporate them into your quilting tool box. Come and try out these tools and you'll find your new favorite!

- Topics Include:**
- Design, audition, and application tools
 - Quilt-loading and frame accessories
 - Handi Feet options
 - Channel locks and straight line options
 - Rulers and templates

December 12, 2020 – 1:30 to 3:30 pm

Class 6-A – Introduction to Pro-Stitcher Designer™

Part 1 Class Description: Pro-Stitcher Designer™ is a full featured, vector-based drawing software gives you the ability to quickly design, edit, customize, export and import any quilting motif you can imagine. This class will start with a basic overview of the easy to use features. New users will be creating their own digital designs for their next quilting project by the end of this class!
