## Assembly:

1. Baste backing fabric to batting using basting spray in a well-ventilated area.

2. On front of batting, use a felt tip pen to mark a 33" x 45" rectangle in the center to provide a guideline for panel placement. Use basting spray to keep panel in the correct position.

3. Start with the 45" strips of Luxe Cuddle® Hide Ivory and lay, right sides together, down one edge of the panel. Pin well and stitch with a 1/2" seam allowance, stitching through the two strips, batting and backing.

4. Repeat with opposite side of panel and remaining 45" strip. Using a

piece of parchment paper to protect right sides of fabric, spray wrong side of strips and press firmly to batting.

5. Continue to quilt-as-you-go in the order shown below.

6. Baste around entire edge of quilt with a zag zag stitch, then trim off excess backing/batting.

7. Bind with Luxe Cuddle® Red Fox. (For information on binding with Cuddle, visit [shannonfabrics.com/video-quilts](http://shannonfabrics.com/video-quilts).)

8. If desired, quilt around bear features to hold batting in place and add visual interest.
