Music is More Fun With A Better Instrument! We can help...

Why buy a Step-Up?

A step-up instrument is recommended when the musician has progressed in their training and has shown a greater desire to pursue music. Step-up instruments are made from higher-level materials, which allow them to produce warmer, more resonant tones.

Sound Better, Play Easier, Make Beautiful Music!

Don't wait, upgrade now

The earlier you upgrade to a better instrument, the longer you will enjoy it. Getting a better instrument within the first few years will be a great advantage.
