

Tucker University Freshman Year

DESCRIPTION: This is a 9-month technique class that will teach you how to use and implement Studio 180 Design Tools. Students will create a precise unit that can be applied to most quilt patterns. Each tool and technique provide both left- & right-handed instructions, multiple sizes, and free online tutorial videos. Note that we will not be creating full blocks in class. Our focus is mastering precise units while learning how to combine them in different ways. Students will learn how to break down a block into units, identify the unit by ruler/technique, and calculate fabric needed for different sized units.

SKILL LEVEL: This is an advanced beginner's class. It is VERY important that you can sew an accurate $\frac{1}{4}$ " seam. It is equally important that you can cut accurately. There is a lot of seam matching. Precision is our focus.

Each month will require 1-2 new rulers and 2+ tech sheets. I combined a few of the simpler rulers to make the most of your time. Ruler costs are listed below in the checklist. **You will receive a 10% discount on each ruler needed for class, w/ bonus discount options (see below).** It is very important that you notify me of any rulers that you may already own. Attached is a checklist of the rulers/tech sheets needed to complete the year. Please fill the form out and return it ASAP if you plan on participating.

The instruction sheets come laminated and punched for a three-ring binder. You will receive a list of supplies needed for class as well as fabric requirements. Fabric can be used from your stash. If you plan on making a quilt out of the units that you created in class, you may want to purchase coordinating fabrics. But the purpose of this class is to learn the tool and practice units, not create full blocks, so you may just want to use up your scraps.

CLASS FEE: \$25 per class

Multi-Class Discount available ONLY to students purchasing rulers from MO's:

***Pay for the whole year up front. Total Cost \$135 (\$90 savings!)

There will be no refund for missed/dropped classes.

BONUS DISCOUNT: Pick a block from the monthly design/technique sheet and bring it back completed to receive **15% off the next month's ruler**. Bring 2 completed blocks class to receive **20% off your next month's ruler**.

MONTHLY COST SUMMARY: Class fee (unless paid in full), 2+ design/technique sheets, and 1-2 rulers.

TIME: 9am-12pm

DATES: 2/17, 3/16, 4/20, 5/18, 6/15, 7/20, 8/17, 9/21, 10/19

By the end of your lessons, you will be able to look at a pattern and recognize how to incorporate your new rulers/techniques. If you love precision, you will love these rulers! 100% worth the investment. More and more designers are choosing to write their patterns incorporating Studio 180 tools!

Please call the shop to register and email/mail/drop off the completed Product Checklist. 517-647-5430
