

Tucker University Freshman Year

DESCRIPTION: This is a 9-month technique class. The purpose of each lesson is to teach you how to use and implement Studio 180 Design Tools. Students will experience the creation of a precise unit that can be applied to most quilt patterns. Each tool and technique provide both left- and right-handed instructions, multiple sizes, and free online tutorial videos. Units can then be used on most quilt patterns. Please know that we will not be creating full blocks in class. Our focus will be on mastering precise units while learning how to combine them in different ways. We will also be learning how to look at a block, break it down into units, and calculate the different sized units that you would need to create that block. We will not have time to complete a block in class (remember our focus is on the units). There will be optional homework with a bonus discount. (Explained below.)

SKILL LEVEL: This is an advanced beginner's class. You must be able to sew an accurate $\frac{1}{4}$ " seam. You must be able to cut accurately. There is a lot of seam matching. Accuracy is what our focus will be.

Each month will require 1-2 new rulers and 2+ tech sheets. I combined a few of the simpler rulers to make the most of your time. Ruler costs are listed below in the checklist. **You will receive a 10% discount on each ruler needed for class. It is very important that you to notify me of any rulers that you may already own. Attached is a checklist of the rulers/tech sheets needed to complete the year. Please fill the form out and return it ASAP if you plan on participating.**

The instruction sheets come laminated and punched for a three-ring binder. You will receive a list of supplies needed for class as well as fabric requirements. Fabric is to be used from your stash. If you plan on making a quilt out of the units that you created in class, you may want to purchase coordinating fabrics. But the purpose of this class is to learn the tool and practice units, not create full blocks, so you may just want to use up your scraps.

COSTS: The Class Fee is \$25 per class.

Multi-Class Discounts:

*Pay for 2 classes at the same time, receive your first class for \$25 and your second class for \$20. (\$5 savings)

**Pay for 3 or more classes: \$25 (first class) + \$20 (second class) + \$10 (each additional class). (\$20+ savings)

***Pay for the whole year up front. Total Class Fee Cost \$115. (\$110 savings!)

There will be no refund for missed/dropped classes.

BONUS DISCOUNT: I thought it might be fun to give you an incentive for doing homework to help master your new skills. If you pick one block from the technique sheet and bring it completed to the next class, you will receive **15% off the next month's ruler**. If you pick one block from the technique sheet AND one block from the design sheet and bring the 2 blocks completed to the next class, you will receive **20% off your next month's ruler**.

In summary, each month you will have the class fee (unless paid in full), design/technique sheet fee, and ruler fee.

Last year was the first year we ran this program. My students and I have learned SO much! We had so much fun learning many new techniques. I now incorporate my Tucker Rulers into every quilt I make. I have learned how to look at a pattern and instantly recognize which ruler I can use. If you love precision, you will love these rulers! 100% worth the investment. I also carry patterns specifically written to use these rulers.

Please call the shop or email me/drop off the completed Checklist below to let us know if you are interested in attending the Tucker University Freshman Year. 517-647-5430

To Register: Return completed form below ASAP.
